

# ROBERT SMITH

## Oracle PL/ETL Developer

Phone: (0123)-456-789 | Email: info@qwikresume.com | Website: Qwikresume.com

---

### SUMMARY

Over 7 years of experience in IT industry with expertise in MSSQL, Oracle, Informatica and ETL tools. 6+ years of experience in the Development and Implementation of Data warehousing with Informatica, OLTP and OLAP involving Data Extraction, Data Transformation, Data Loading and Data Analysis. Experience in all phases of the Data warehouse life cycle involving Analysis, Design, Development and Testing of Data warehouses using ETL Logic.

### CORE COMPETENCIES

### PROFESSIONAL EXPERIENCE

#### Oracle PL/ ETL Developer

ABC Corporation - January 2009 – April 2010

##### Key Deliverables:

- Interpreted and comprehend business/data requirements from upstream processes.
- Documented technical requirement specifications and detailed designs for ETL processes of moderate and high complexity.
- Created and documented source-to-target mappings and ETL specifications. Performed Root cause analysis and resolved complex issues.
- Involved all phases of the project life cycle such as analysis, design, coding, testing, production and post-production.
- Created detailed documentation including ETL source-to-target mapping, high level ETL architecture, ETL design, test cases, test scripts, and code migration.
- Extensively working on Repository Manager, Informatica Designer, Workflow Manager and Workflow Monitor.
- Created complex mappings, complex mapplets and reusable transformations in Informatica Power Center Designer.

#### ETL Developer

ABC Corporation - 2007 – 2009

##### Key Deliverables:

- Involved with project analysis to understand the business requirement specification and implemented the ETL jobs using DataStage Server and Parallel Extender.
- Extract Transform and Load legacy systems to core and datamarts.
- Read XML files as source then load to a table as data change event key.
- Monitored performance and statistics using DS Director.
