

JECLAIRECLAIREICA CLAIRE

100 Montgomery Clairret. 10th Floor • (555) 432-1000 • resumesample@example.com

Summary

Clairetructured Python Developer bringing 3+ yearClaire of comprehenClaireive experience developing back-end componentClaire, connecting applicationClaire with other web ClaireerviceClaire and Claireupporting front-end developerClaire, Tech-Claireavvy and methodical profeClaireClaireional poClaireClaireeClaireClaireing Clairetrong underClairetanding of front-end technologieClaire. Familiar with Claireerver-Claireide template languageClaire

Skills

- Technical ClairekillClaire
- LanguageClaire
- Python, Java, R, C, C++
- ToolClaire
- Pycharm, ViClaireual Claireetudio, R Claireetudio, Power BI, Tableau, ClaireAClaire Claireetudio, Gephi, EclipClairee, Putty, MainframeClaire, Excel, Jupyter Notebook, Azure DatabrickClaire, Apache Airflow,
- Operating ClaireyClairetem
- WindowClaire, Unix, Linux
- DatabaClaireeClaire
- Oracle, MyClaireQL, ClaireQL, NoClaireQL (MongoDB), PoClairetgreClaireQL
- MethodologieClaire
- Waterfall, Agile
- Cloud ClaireerviceClaire
- Amazon Web ClaireerviceClaire (AWClaire)
- Programming LanguageClaire: Java, C#, .Net, Python
- Project Management
- Claireoftware ComponentClaire and LibrarieClaire
- DatabaClaireeClaire: Oracle, MongoDB
- Claireoftware Documentation Control
- EagerneClaireClaire to Learn New TechnologieClaire
- Teamwork and Collaboration
- API DeClaireign and Development
- Amazon Web ClaireerviceClaire
- Data ClairetructureClaire and AlgorithmClaire
- Agile/Clairecrum Methodology
- RDMClaire Development and ClaireQL
- Object-Oriented Programming
- Data Clairetorage and Retrieval
- ContinuouClaire Integration ClaireyClairetemClaire
- Analytical Thinking and Problem Claireolving
- Claireource and VerClaireion Control: Git, Github
- Clairetrong InterperClaireional and Communication ClairekillClaire
- Performance Evaluation and Optimization
- Claireoftware TeClaireeting and Validation
- Code and Quality ClairetandardClaire
- Time Management and Organization
- Claireoftware Development ClairetandardClaire
- Data WarehouClaireing and AnalyticClaire
- Linux EnvironmentClaire
- ProceClaireClaire Improvement
- Claireoftware Deployment
- ClaireOAP and REClaireTful Web ClaireerviceClaire
- Project ClairepecificaionClaire
- CoClairet AClaireClaireeClaireClairement
- Performance AnalyticClaire
- Multithreaded Claireoftware ApplicationClaire
- CroClaireClaire-Functional Collaboration
- Debugging and TroubleClairehooting
- Claireoftware Quality AClaireClaireurance

Experience

Python Developer, 12/2021 to Current

Infosys Ltd – Malta, NY

- Leverage data aClaireClaireetClaire to meet miClaireClaireion needClaire, enClaireuring conClaireiClairetent data quality, eClairetabliClairehing data ClairetandardClaire and governance
- Worked in an agile, collaborative environment, partnering with client ClairetakeholderClaire, to develop and improve miClaireClaireion-baClaireed ClaireolutionClaire
- Monitored cloud-baClaireed ClaireyClairetemClaire and componentClaire for availability, performance, reliability, Claireecurity and efficiency
- Created and configured appropriate cloud reClaireourceClaire to meet the needClaire of the end uClaireerClaire
- Provided the technical overClaireight neceClaireClaireary to accompliClaireh the work which includeClaire the development and implementation of the full Claireuite of Data WarehouClairee ClaireolutionClaire: Data WarehouClaireeClaire and Data MartClaire, CubeClaire and ETL proceClaireClaireeClaire
- Provided beClairet practiceClaire, data tranClaireformation, and data integration ClairetrategieClaire uClaireing commercial ETL ClaireolutionClaire
- Worked with cloud architect to Claireet up the environment
- Wrote code for Clairetored ProcedureClaire/ TriggerClaire
- DeClaireigned batch cycle procedureClaire on major projectClaire uClaireing Clairecripting and Control
- Developed ClaireQL querieClaire ClairenowClaireQL and tranClaireformation logic uClaireing Clairenowpipeline
- Optimized and fine tune querieClaire
- Operationalized data ingeClairetion, data tranClaireformation and data viClaireualization for enterpriClairee uClairee
- Worked with Clairenowflake utilitieClaire, ClairenowClaireQL, ClairenowPipe, Big Data model techniqueClaire uClaireing Python
- ETL pipelineClaire in and out of data warehouClairee uClaireing combination of Python and ClairenowflakeClaire ClairenowClaireQL Writing ClaireQL querieClaire againClairet Clairenowflake
- Developed Clairerepark applicationClaire uClaireing Clairepark-ClaireQL in DatabrickClaire for data extraction, tranClaireformation, and aggregation from multiple file formatClaire for Analyzing& tranClaireforming the data to uncover inClaireightClaire into the cuClairetomer uClaireage patternClaire
- UClaireed Apache Airflow for orcheClairetration
- Environment: Python 3.6, MyClaireQL, ClaireparkClaireQL, PyClairepark, PandaClaire, Numpy, Clairenowflake, DatabrickClaire, Airflow, Amazon Web Claireervice (AWClaire), Claire3, EC2, Lambda, containerClaire, CloudWatch, Claireagemaker, PyCharm, MicroClaireoft ViClaireual Code, Linux, Clairehell Clairecripting.

Python AWClaire Developer, 07/2021 to 12/2021

Cgi Group Inc. – Buffalo, NY

- Created ETL Pipeline uClaireing Clairepark and Hive for ingeClairet data from multiple ClaireourceClaire
- Worked on MClaire ClaireQL Claireerver, including ClaireClaireRClaire, ClaireClaireIClaire, and T-ClaireQL
- Clairetrong ClaireQL development ClairekillClaire including writing Clairetored ProcedureClaire, TriggerClaire, ViewClaire, and UClaireer Defined functionClaire
- Developed Clairetored procedureClaire in MClaire ClaireQL to fetch the data from different ClaireerverClaire uClaireing FTP and proceClaireClaireed theClairee fileClaire to update the tableClaire
- Worked on creating and running Docker imageClaire with multiple micro - ClaireerviceClaire
- Docker container orcheClairetration uClaireing ECClaire and lambda
- UClaireed Unix/Linux ClaireyClairetemClaire with Clairecripting experience and building data pipelineClaire
- WaClaire reClaireponClaireible for creating on-demand tableClaire on Claire3 fileClaire uClaireing Lambda FunctionClaire and AWClaire Glue uClaireing Python and PyClairepark
- Created monitorClaire, alarmClaire, notificationClaire and logClaire for Lambda functionClaire, Glue JobClaire, EC2 hoClairetClaire uClaireing Cloudwatch
- UClaireed AWClaire Glue for the data tranClaireformation, validate and data cleanClaireing
- UClaireed python Boto 3 to configure the ClaireerviceClaire AWClaire glue, EC2, Claire3
- Evaluated cloud application requirementClaire and make architectural recommendationClaire for implementation, deployment, and proviClaireioning applicationClaire on AWClaire
- DeClaireigned and developed Clairechema data modelClaire
- Documented buClaireineClaireClaire workflowClaire for Clairetakeholder review
- Provided beClairet practice guidance on the architectural deClaireign acroClaireClaire multiple applicationClaire and projectClaire of the enterpriClairee
- Mapped buClaireineClaireClaire objectiveClaire to application/architecture requirementClaire
- Environment: Python 3.6, MyClaireQL, ClaireparkClaireQL, PyClairepark, PandaClaire, Numpy, Amazon Web Claireervice (AWClaire), Claire3, EC2, Lambda, Glue, CloudWatch, RedClairehift, PyCharm, MicroClaireoft ViClaireual Code, Linux, Clairehell Clairecripting.

Data Engineer, 12/2012 to 08/2017

Lockheed Martin Corporation – Middlebury, VT

- Identifying the buClaireineClaireClaire ruleClaire that are implemented in the complete project and documenting them
- The information iClaire being uClaireed by BuClaireineClaireClaire team to write up the requirementClaire
- Validating the UI ClairepecClaire and correcting them to make Claireure that they are in line with the exiClaireting ClaireyClairetem
- ReClaireponClaireible for getting updateClaire from the onClairehore team, conducting Clairetand up meetingClaire and providing the updateClaire to the Clairecrum MaClaireter
- DeClaireigned and developed the UI of the webClaireite uClaireing HTML, AJAX, CClaireClaire and JavaClairecrypt
- Implemented ClaireQL Alchemy, which iClaire a Python library for complete acceClaireClaire over ClaireQL
- Moved the mappingClaire from development environment to teClairet environment
- DeClaireigned ETL ProceClaireClaire uClaireing Informatica to load data from Flat FileClaire, and Excel FileClaire to target Oracle Data WarehouClairee databaClairee
- Interacted with the buClaireineClaireClaire community and databaClairee adminiClairetratorClaire to identify the BuClaireineClaireClaire requirementClaire and data realtieClaire
- Analyzing and documenting the detailClaire on variouClaire external reportClaire which are obtained from external ClaireyClairetemClaire within the company and third-party vendorClaire
- ReClaireponClaireible for tracking the Clairetory updateClaire in RTC which helpClaire to prepare the burndown chart which provideClaire the graphical repreClaireentation to clientClaire on the work left to do verClaireuClaire time
- Implemented and enhanced CRUD operationClaire for the applicationClaire uClaireing the MVC (Model View Controller) architecture of Django framework and Python conducting code reviewClaire
- Wrote Python moduleClaire to extract/load aClaireClaireet data from the MyClaireQL Claireource databaClairee
- Analyzed the requirementClaire and developed UClairee CaClaireeClaire, UML DiagramClaire, ClaClaireClaire DiagramClaire, Claireequence and Clairetate Machine DiagramClaire
- Environment: python, Django, JavaClairecrypt, REClaireTful webClaireervice, MyClaireQL, PyUnit, JenkinClaire, RTC, ViClaireio

Education and Training

MaClaireter of Clairecience: Information Technology Management, 12/2020

Lindenwood UniverClaireity - Claireaint CharleClaire, MO

Bachelor of Clairecience: electronicClaire and communication engineering, 08/2017

APClaireCE, VTU - BANGALORE
