Alabama.

### Objective

Highly qualified SQL BI Developer/Consultant with over 3 plus years of experience in implementing end-to-end BI solutions using the Microsoft BI Stack (SSAS, SSIS, SSRS, and Tableau) within several industries viz. Manufacturing, Health, Service, and Insurance. Involved in gathering business requirements from clients through Joint Requirement Development sessions for functional and non-functional requirements.

### Skills

Business Intelligence, Sql Server, Ms Access, SSIS, SSRS, SSAS, C++, Java, HTML, CSS, PHP, SQL, T-Sql.

### Work Experience

#### SQL BI Developer/Consultant

**ABC Corporation** - September 2013 - April 2014

- Gathered business requirements as an endeavor that will facilitate the planning and implementation phase of a data warehouse for reporting.
- Conducted JAD sessions with different Auditors, Business Users to capture and document the BRD and transform the relevant /approved BRD into SRS and FRS.
- Developed and created logical and physical database architecture using Erwin.
- Created stored procedures for auditing purposes as well as triggers for data consistency checks.
- Dramatically increased query performance, necessary for statistical reporting after monitoring, tuning, and optimizing indexes by using Performance Monitor, Profiler, and Index tuning wizard.
- Examined and evaluated the data structures in the source and destination databases/staging Tables.
- Developed complex mappings using SSIS to transform and load the data from various source systems like Oracle into the SQL 2008R2/2012 Server target staging database.

#### SQL BI Developer

**ABC Corporation** - 2010 - 2013

- Created new tables, written stored procedures for Application Developers and some user-defined functions.
- Created SQL scripts for tuning and scheduling. Performed data conversions from flat files into a normalized database structure.
- Handling Users/Logins/User Rights Creation/Deletion of Linked Servers Managing historical data from various heterogeneous data sources (i.e. Excel, Access)
- Engage in detailed and advanced requirements gathering for BI projects and statements of work.
