

# Jessica Claire

100 Montgomery St. 10th Floor  
(555) 432-1000 - resumesample@example.com

## Skills

- Programming: PYTHON,C/C++,Java
- FRONTEND: REACT
- OS: WINDOWS,LINUX
- GitHub,GIT SVN
- Web app development and Development standards
- Algorithms and data structures
- HTML, CSS, and XML proficiency
- Software Development and Virtualization
- Database Programming
- Agile
- Testing and maintenance

## Additional Information

- AWARDS ALL INDIA 2ND RANK IN ABACUS LANGUAGES ENGLISH HINDI TELUGU SPANISH KANNADA TAMIL BENGALI

## Certifications

- Certified Server-side Development with NodeJS, Express and MongoDB at Coursera.
- Certified The Arduino Platform and C Programming at Coursera .
- Certified CRASH COURSE ON PYTHON by GOOGLE at Coursera .
- Certified BUILD A MODERN COMPUTER FROM FIRST PRINCIPLES: FROM NAND TO TETRIS (PROJECT-CENTERED COURSE) by THE HEBREW UNIVERSITY OF JERUSALEM at Coursera .
- Certified HTML, CSS, AND JAVASCRIPT FOR WEB DEVELOPERS by JOHNS HOPKINS UNIVERSITY at Coursera .
- Certified FACIAL EXPRESSION RECOGNITION WITH KERAS at Coursera .
- Certified INTRODUCTION TO DATA STUDIO by Google Analytics Academy at Coursera .
- Certified GOOGLE ANALYTICS FOR BEGINNERS by Google Analytics Academy at Coursera .
- Certified ADVANCED GOOGLE ANALYTICS by Google Analytics Academy at Coursera .

## Professional Summary

A self-motivated, hardworking undergraduate student in computer science, Currently looking to pursue a master's degree, to achieve a successful commute with a great corporate which I suppose would stack up my skill set to professional scenarios and lead to a better career where I would be an asset, striving to an uplift corporation is my resolve. I would accent and excel with great teams.

## Work History

|                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| 12/2021 to 03/2022 | <b>Frontend React Developer Intern</b><br><b>Connet – Canton, NC</b> <ul style="list-style-type: none"><li>• Collaborated effectively with members of the software development team and personnel in other departments.</li><li>• Prepared and submitted 50+ of the reports and other documentation to assist development team members.</li><li>• Tested applications for usability and adherence to 100% of the code plan.</li><li>• Wrote clear, clean code for 6+ projects.</li><li>• Assisted with creating software programs with 3 language switch features.</li></ul>                                                                                                                                                                               |
| 08/2021 to 11/2021 | <b>Editing Assistant</b><br><b>Disha Finance And Tech – City, STATE</b> <ul style="list-style-type: none"><li>• Evaluated and selected scenes for pacing, entertainment value, and continuity, trim shots, and edited content.</li><li>• Organized assets by collecting data from camera media, transcoding video, and audio files, and managing file backup to the digital asset management system.</li><li>• Delivered 100+ edits with multiple camera angle choices, titles, graphics, audio, and special effects.</li><li>• Combined text, video, and other composited elements onscreen to create logical, coherent layouts.</li><li>• Exported final cuts and upload them to the content management system and client platforms.</li><li>•</li></ul> |
| 08/2020 to 03/2021 | <b>Human Resources Manager</b><br><b>Dridh Sankalp Foundation – City, STATE</b> <ul style="list-style-type: none"><li>• Processed employee claims involving performance issues and harassment.</li><li>• Motivated employees through special events and incentive programs.</li><li>• Streamlined HR efficiencies, coordinated new hire orientations, and provided onboarding and training for 25 new employees.</li><li>• Implemented performance reviews and motivational strategies to elevate HR team results.</li><li>• Evaluated employee onboarding programs and presented strategic improvement recommendations to upper management</li></ul>                                                                                                      |

## Accomplishments

- Published a Research paper at Scopus Journal on Aboide Cybernation which is Home Automation System using the Internet Of Things <http://sciencescholar.us/journal/index.php/ijhs/article/view/7650>
- Accelerated daily routines like checking emails and being on class schedules using Automation with Selenium, and python during the pandemic.
- Created several Web Applications which proved helpful to my professors, and family business using PHP, MySQL, JavaScript, AJAX, and Python.
- The absence of “Google Meet API” is a problem to schedule meetings via my Research Platform “Ve-Search”. I solved this problem by scripting my own bot in Selenium Python. This ingenious idea saved the feature with no compromise.
- Achieved an ever-clashing Tic-Tac-Toe Game state with Reinforcement Learning and Rule-Based Learning models playing against each other with python.
- Programmed for 3000+ hours with Python with a Hackarank.
- Achieved accurate diagnostic analytics result of data sets drawn from World Bank on India~ Affluence, Economics, and Literacy with the help of Tableau, R.
- Learned concepts of Machine Learning with the original implementation of a few algorithms in Machine Learning like State Vector Machines, K-Means, Decision Trees, etc. which showed par-excellent accuracies measured against their Scikit-Learn implementations.
- Currently developing an “Automated Data Pre-Processor” using the web interface and PHP, Python, and R as backend programming languages.
- Software Engineer Intern dedicated to improving skills through hands-on learning and development work. Proficient in mobile and desktop development environments. Adept at using HTML5, JavaScript, and other programming languages to produce clean code. Well-organized and collaborative team player with strong communication and analytical abilities.
- Complex problem-solver with an analytical and driven mindset. Dedicated to achieving demanding development objectives according to tight schedules while producing impeccable code.
