WORK HISTORY

Lonza Group Ag - Senior SAP Practitioner
Houston, TX • 06/2019 - Current

- Effectively adhere, advise, and lead enterprise level projects to enhance DoD SAP ERP requirements.
- Strategically, coordinated, created course curriculum, and instructed following LMP/CAMS courses: WIP Tracking, Goods Movements, Certification/Qualification Tracking, Quality Nonconference Record, Production /Quality Freeform Callboard Request, WIP Tracking Callboard Request, Order Maintenance, Shop Floor Management, CAPP Creation, ect.
- Successfully implemented CAMS WIP Tracking module throughout RRAD Enterprise.
- Led, RRAD to being the first & only Depot to track certifications/qualifications in both CAMS & LMP.
- Created over 50 CAMS/ LMP Go Buys
- Clearly able to understand & articulate Depot Business Processes to SAP ERP LMP CAMS developers in turn being able to assist with the developement & implementation of key depot requirements.

CCAD - Quality Management/Program Analysts
City, STATE • 06/2012 - 06/2015

- Effectively assisted with DQM's implementation of CAMS: Nonconformance Record Creation, Callboard Freeform Call Generation, CAPP Plan & Sign Off Cycle.
- Led identifying & capturing of key Production Analyst & Data Collection System formulas & calculations to generate Quality Deficiency Rates extracting data from CAMS utilizing MII to create Quality Nonconference Reports by Production Workcenter.
- Accurately & concisely wrote CAMS/LMP government: Regulations, Standard Operating Procedures (SOPs) as well as Letter of Instructions (LOIs) for DQM.
- Ran LMP COOIS/ZCOOIS reports determinded inaccurate indirect time charging hours. In turn initiated a charging system for Quality & established codes to define indirect work performed.
- Developed the Orange Card Request for Quality Support utilizing SharePoint/ Visio for electronic submission & a paper process that would allow artisans to ask Quality related questions without being identified.
- Assisted with the Depot's After Action Program Reviews extracting both /CAMS nonconformance data & LMP labor overruns for both Production & Quality to determine reasons for program overruns. The report allowed Program Management to go back & get more funding on cost reimbursable programs while also trending of specific defects by type & contributed to LSS Candidate potential projects accounting for well over 1 million in cost savings.

Corpus Christi Army Depot - Quality Management & Analysis Branch Chief
City, STATE • 06/2015 - 06/2019

- Coached & mentored staff to develop utilizing both LMP Business Objects & AWPS reports to indentify & recommend correction to systemic issues causing inaccurate forecasting calculations.
- Collectively worked with my staff to develop over 15 Quality Control CAMS desktop guides that effectively assisted with their daily systemic operations.
- Utilized automation LMP/CAMS tools to improve efficiency, eliminate waste and free up labor both direct/indirect hours for other needs.
- Coordinated the development of team communications & information for monthly Quality meetings standardizing reports in both LMP/CAMS.

Corpus Christi Army Depot - Materials Requirements Planner
City, STATE • 03/2005 - 06/2012

- Soley managed the UH-60 Recap Program material requirements in LMP planning, scheduling, & coordinating part/material deliveries.
- As a LMP SME tracked cost & assured program material cost were maintained & material delivery is scheduled accordingly to meet production schedule.
- Drove change being the government selectee to travel to and from Marlton, New Jersey on the Fly Away LMP Team define Depot LMP MRP requirements.
- Developed & effectively, trained MRP to utilize LMP for material ordering both systematically procuring/moving goods & also for the Government Purchase Card Program & partnership contract orders.
- Subject Matter Expert for SAP, LMP, Government Credit Card/ Material Requirements Planning
