PERSONAL DETAILS

PERSONAL SUMMARY

A skilled java developer with proven expertise in using new tools and technical developments to drive improvements throughout a entire software development lifecycle. Having extensive industry and full life cycle experience in a java based environment, along with exceptional analytical, design and problem-solving capabilities. Excellent communication skills and able to work alongside support teams and the java community to define and refine new functionality.

Looking for a ambitious company which will challenge my developer and problem solving skills and allow me to continue to develop my knowledge and potential.

WORK EXPERIENCE

IT Consultancy Firm – Coventry

JAVA DEVELOPER June 2008 - Present

Working with other developers to build technical solutions & complete projects to budgetary and quality requirements. Also involved in requirements gathering, demonstrating software prototypes, technical sales presentations, customer training.

Duties:

- Development of Java interfaces & Configuration Management of the source code.
- Working with users to establish requirements and determine priorities.
- Meeting client's face to face at their offices.
