

Sebastian Martin

Senior ETL DataStage Developer | SQL | Unix Scripting

@ help@enhancv.com linkedin.com Houston, Texas

SUMMARY

Senior ETL DataStage developer with over 10 years of professional IT experience, focused on ETL, data integration, and system optimization. Adept at utilizing tools like IBM DataStage, SQL, and Unix scripting. Proven record in managing large projects and delivering high-quality database solutions.

EXPERIENCE

Senior ETL DataStage Developer

IBM

2016 - Ongoing Houston, Texas

Implemented and maintained ETL data pipelines using IBM DataStage.

- Designed ETL processes using IBM InfoSphere for multiple projects, one of which involved a multi-terabyte database.
- Worked closely with lead developers to design database structures adhering to project specifications.
- Compiled and ran DataStage jobs regularly, resulting in optimal efficiency and data quality.

ETL Developer

Accenture

2012 - 2016 Houston, Texas

Assumed a leading role in ETL development and data integration.

- Played a primary role in designing and building a data warehouse for a major client, resulting in improved data accessibility.
- Utilized SQL scripting and Unix scripting for data manipulation and database management.
- Coordinated with team members to address and resolve data quality issues.

STRENGTHS

★ ETL Data Construction

Successfully implemented ETL procedures for multiple large-scale projects, notably a multi-terabyte database.

💡 Client Communication

Exceptional skills in addressing data quality issues with users and explaining complex database structures.

❤️ Problem Solving

Proven ability to troubleshoot and resolve multiple development issues and ensure project deliverables.

EDUCATION

Master's Degree in Computer Science

Rice University

2008 - 2010 Houston, Texas

Bachelor's Degree in Computer Science

University of Texas at Austin

2004 - 2008 Austin, Texas
