SUMMARY

Experienced Python Developer with 5+ years of expertise in designing and implementing scalable API solutions. Proficient in Python and Java development, with a strong working knowledge of AWS services and REST API integration. Collaborative team player, skilled in mentoring junior developers and leading technical initiatives. Proven track record of delivering high-quality products through problem-solving, adaptability, and effective collaboration. Holds a Bachelor's degree in Computer Science and is AWS Certified. Enthusiastic about leveraging technical skills and experience to contribute effectively to a dynamic and innovative organization.

EXPERIENCE

Python Developer 2022 - Ongoing
Tech Solutions London, UK

Designed and implemented Python-based AWS Lambda APIs, resulting in improved performance and scalability of the API Management system.

- Developed new features and functionalities using Python, integrating with REST APIs and implementing JSON-based communication.
- Collaborated with Solutions Architect to design and deliver product enhancements, ensuring alignment with business requirements.
- Mentored junior developers, providing technical guidance and fostering professional growth within the team.

Java Developer 2017 - 2022
Innovative Technologies New York, USA

Built Java classes to extend the API Management platform and ensured optimal utilization of resources.

- Implemented unit tests using Junit and Mockito, resulting in improved quality and reliability of the codebase.
- Worked on live products, providing support and resolving critical issues within tight deadlines.
- Collaborated with cross-functional teams to integrate third-party APIs, enhancing system capabilities.

Software Engineer 2015 - 2017
Digital Innovations San Francisco, USA

Developed web applications using Python, Java, and JavaScript, ensuring seamless user experiences.

- Utilized Spring and Spring Boot frameworks for application development, resulting in enhanced performance and scalability.
- Collaborated with Agile development team, utilizing Git/GitHub and Atlassian toolset for version control and project management.
- Contributed to the implementation of DevOps practices, streamlining the software delivery process.

MY LIFE PHILOSOPHY

Hard work beats talent when talent doesn't work hard. - Tim Notke

STRENGTHS

☆ Problem-solving

Successfully resolved complex technical issues resulting in improved efficiency and reduced downtime.

🏆 Collaboration

Proven track record of working effectively in cross-functional teams, fostering teamwork and driving project success.

★ Adaptability

Quickly adapt to new technologies and frameworks, staying up-to-date with industry trends to deliver cutting-edge solutions.

SKILLS

Python · Java · AWS Lambda ·

REST APIs · JSON · Spring ·

Spring Boot · Git/GitHub · Maven ·

Linux · Bash scripting · DevOps
