## EXPERIENCE

### LEAD DEVOPS ENGINEER, DESK.COM

New York, NY

12/2013 – present

- The pursuit of continuous self-improvement, and technical achievement
- Making data driven decisions to improve resilience, and service quality
- Architecting, and building systems impervious to chaos and cloud weather
- Sharing knowledge and mentoring others
- Solving seemingly impossible challenges
- Avoiding unnecessary complexity, and simplifying complex methodologies
- Unencumbered freedom to innovate, and automate everything

### TECH LEAD DEVOPS ENGINEER

Phoenix, AZ

12/2006 – 09/2013

- Maintain the R&D runtime environments by providing environment provisioning automation on private and public clouds
- Develop and introduce the right tools to support the above
- Design and implement the installation and deployment aspects of the product on private and public clouds
- Maintain and optimize all of the product release pipeline phases: Build, Application deployment, Artifact promotion
- Be a leading member of the R&D scrum teams, serve as a technical focal point and promote collaboration and knowledge sharing within your team and the team interfaces
- Integrate, support and enhance the continues automatic testing of the products
- Serve as the team focal point for windows and Linux system administration

### LEAD DEVOPS ENGINEER

San Francisco, CA

01/2004 – 09/2006

- Work closely with quality engineering, product management and other team members to develop, test and deploy high quality software
- Attention to detail to ensure code management, code workflow, security and performance analysis standards are adhered to
- Own the code promotion process, including source control management, branch management, and build management
- Supporting and working alongside Agile development teams to ensure they have all the facilities to get the job done
- Support and improve our tools for continuous build, automated testing and release management
- Monitor the SaaS environment and work with QA, Developers, Ops to identify and solve problems
- In conjunction with the project manager, develop technical project plans and timelines

## EDUCATION

### RUTGERS UNIVERSITY

Bachelor's Degree in Engineering

## SKILLS
