

CHARLOTTE MAY

Experienced Apex/PLSQL Database Developer

@ fakeemail@example.com 📍 Washington, D.C.

SUMMARY

Passionate Apex/PLSQL developer with experience in Object-Oriented Analysis and Design seeking challenging role with AnaVation to provide innovative solutions to mission-critical customers.

EXPERIENCE

Apex/PLSQL Developer 2019 - 2022
TechB Solutions Chicago, IL

Developed complex APEX applications for Fortune 500 companies, resulting in streamlined business processes and increased productivity.

- Designed and developed multiple APEX applications, integrating with various external systems resulting in improved data accuracy and faster reporting.
- Optimized SQL queries and utilized indexing techniques resulting in significant improvement in application performance.
- Implemented Agile methodologies for software development resulting in increased team collaboration and faster delivery of solutions.

PLSQL Developer 2017 - 2019
ABC Financial Little Rock, AR

Developed and maintained PLSQL modules for a large-scale customer management system, resulting in increased system efficiency and reduced maintenance costs.

- Collaborated with cross-functional teams to gather requirements, design and develop PLSQL modules for the customer management system.
- Developed and maintained ETL processes resulting in improved data accuracy and increased efficiency in data processing.
- Created automated scripts for database backup and monitoring, reducing maintenance time by 30%.

Database Developer 2015 - 2017
XYZ Healthcare Houston, TX

Developed and maintained database solutions for healthcare systems, resulting in improved patient care and reduced operational costs.

- Developed and maintained Oracle databases, including data modeling, performance tuning, and troubleshooting.
- Designed and developed PLSQL procedures and functions for data processing and reporting, resulting in improved efficiency and accuracy.
- Implemented database security protocols and disaster recovery plans resulting in improved data protection and system availability.

EDUCATION

Bachelor of Science in Computer Science 2011 - 2015
University of Texas at Austin Austin, TX

STRENGTHS

★ Agile Development

Developed Agile processes which helped reduce development time by 25%.

🏆 Problem Solving

Successfully resolved complex database issues by creating efficient PL/SQL scripts and queries.

🔄 Collaboration

Worked with cross-functional teams to develop and deliver mission-critical applications.

SKILLS

Oracle Database · SQL · PL/SQL · APEX · Object-Oriented Analysis and Design

ACHIEVEMENTS

🏆 Developing a High-Performance Database

Designed and developed a high-performance database that increased query speed by 50%.

🏆 Successfully Migrating Data

Successfully migrated a large amount of data to a new database, minimizing downtime and ensuring data integrity.
