EDUCATION

University of Massachusetts
Boston • May 2017

Bachelor of Arts: Communication
Research Studies
Graduated Summa Cum Laude

TL; DR

3rd most prolific contributor to Operation-Code's open source front-end build with over 50 commits and 3500+ additions and counting (React.js based). Currently building a "Spotify for Poetry" platform for a local startup in off-time based on the Wes Bos "Learn Node" course (Node.js, Express, Pug, MongoDB). Recent teaching event: "Deploy a static site with Jekyll and Github Pages" at the Boston Public Library (contact me for the slide deck).

WORK HISTORY

Leidos Holdings Inc. - Volunteer Front-End Developer / Public Liason
05/2017 - Current

- Collaborating with a large team of volunteer developers to build and improve Operation Code's digital presence, resources, and technology.
- Working full-time at the Mass Challenge accelerator to improve our services to veterans.
- Recent achievement: Sourced partnership with Code Academy to offer free premium memberships and boot camp seats to Op-Code veterans.
- Creating and presenting at meetups, hackathons, and other events.

Self Employed - Web Developer
07/2016 - Current

- Design and develop client sites, leveraging a self-built network of creative professionals to create rich media experiences.
- Deployed 8 marketing landing pages for Country Clubs across the U.S, increasing membership rates and retention.
- Published 12 sites since inception.
- Constantly learning new technologies to expand my reach (Currently learning Node and Express for a hobby project).

Stand Fast, Inc - Co-Founder
City, STATE • 06/2014 - 11/2015

- Worked with a partner to develop TheFitFuture.com, an innovative platform connecting PersonalTrainers and Health Coaches with clients to train over webcam.
- Interviewed over 100 potential candidates, successfully integrated 12 into our site.
- Worked closely with SBDC, Harvard Transactional Law Clinic, and SCORE mentors to develop a business plan, practices, and structure.
- Developed company from nascency through early revenue stage, exiting due to longevity concerns.

Army National Guard - Mortar Squad Leader Sergeant
City, STATE • 05/2014 - 11/2016

- Created and executed training plans while working within the paradigms set forth by higher level leadership to achieve mission readiness in preparation for a deployment.
- Acted as liaison between my squad and other elements within the unit to coordinate the training and logistics necessary for company-level mission success.

US Army - Mortar Infantry
STATE • 2011 - 04/2014

- Self-taught complicated FDC (fire direction computation) through textual study and practice when not on missions.
- Rapidly absorbed command directives, formulated multi-level plans, taught plans to subordinates, then led subordinates to successful mission outcomes.
- Led mortar teams on over 200 combat missions including direct action and support by fire, developing excellent small unit leadership abilities under high duress.
- Learned and performed in other critical roles including triage medical care and detainee operations.
- Protected classified information, maintaining the confidence of my leaders and peers without a single breach.
