Professional Profile

Former U.S. Navy veteran with 4 years of experience in software engineering who seeks employment as part of a dynamic software development team. Have 2 years of experience developing web applications using web technologies such as AngularJS, HTML, JQuery, and CSS and about 2 years of experience in developing mobile applications for the iOS platform using swift and iOS SDK.

Relevant Professional Experience

- 04/2021 to Current

IOS Developer

Bank Of America Corporation – Bainbridge Island, WA

 - Developed native iOS product compatible with iPhone and iPad devices.
 - Collaborated with development team in architectural design and decisions.
 - Worked with Atlassian products such as Jira for tracking and updating user stories and sprint progress.
 - Utilized Confluence as a tool for documenting and referencing technical project work.
 - Used Carthage package manager in importing and managing project's third-party libraries and dependencies.
 - Used GitHub as a versioning control tool to manage project's source code history.
 - Used ARC to handle memory management efficiently.
 - Developed iOS native application to support various screen sizes and orientations for iPhone and iPad using Size Class.
 - Utilized the Combine framework in building a reactive application.

03/2021 to 04/2023

IOS Developer/React Native Developer

Pointclickcare – Montgomery, AL

- Collaborated in implementing responsive iOS native applications using Swift and the latest technologies to provide users with a smooth and intuitive user experience.
- Followed Apple's Human Interface guidelines to create products aligned with iOS UI norms.
- Created reusable components that can be applied to iOS applications developed throughout the organization.
- Managed and implemented data state across application using Redux and Redux-thunk (as middleware to manage Asynchronous data).
- Conducted interviews to evaluate possible future iOS developer candidates to meet the development team's staffing capacity.
- Provided continuous maintenance and bug fixes for the existing application to improve usability and user experience.
- Wrote unit tests on the existing React Native and iOS codebase to meet a minimum of 80% code coverage using Javascript and iOS testing frameworks such as JestJS and XCTest, respectfully.

01/2019 to 09/2020

Junior IOS Developer

Anthem, Inc. – City, STATE

- Have about 2 years iOS development experience in Swift.
- Proficient in iOS application development using native frameworks like Core Graphics, PushKit, AVFoundation, and UIKit.
- Improved product quality through code reviews, writing effective unit tests and collaborating with QA on implementing automation testing.
- Work along with other engineers and developers in formulating and deciding on solutions to technical problems.
- Reviewed client requirements, wireframes, and designs for technical feasibility.
- Experience writing code following MVC architecture.
- Integrated ForeSee SDK to enable customer feedback on application usage.
- Collaborated with the scrum team to translate client requirements into implementable user stories.
- Developed reusable custom components for iOS applications.
- Experience in concurrent programming working with operation queues and dispatch queues.
- Worked with source control tools such as Bitbucket.
- Experience with agile/scrum tools.
- Experience with RESTful, JSON, XML, and SOAP Web Services.
- Used Jira to maintain project and sprint level progress and development.
- Implemented remote feature flag capability using LaunchDarkly SDK for continue integration (CI) support.

09/2016 to 01/2019

AngularJS/Mobile Developer

Anthem Inc. – City, STATE

- 2+ experience in developing web application in AngularJS, HTML, and CSS.
- Worked with product designers and product managers to design user interactions in applications.
- Tested features across various browsers.
- Implemented push notifications functionality into Android and iOS mobile platform.
- Fixed bugs as were encountered.
- Conducted design and code reviews to share knowledge with development team.
- Designed and maintained Web and Mobile applications.
- Collaborated with designers to create clean interfaces and simple, intuitive interactions and experiences.
- Assisted Anthem in cost savings of up to 150,000/year through migration of cross-platform Mobile Application framework from IBM Worklight to Apache Cordova.
- Implemented build tools including Gulpjs into mobile applications.
- Performed and implemented unit tests on several sections of Anthem's Mobile Application using Jasmine framework.
- Modularized front-end CSS and JS code with Sass.
- Develop rich SPA using AngularJS javascript framework.

Work Experience

- 05/2007 to 11/2012

Auxiliary Machinery Operator and Supervisor

U.S. Navy – Newport News, VA

 - Supervised operation and organizational maintenance of auxiliary machinery systems.
 - Successfully trained and led a team responsible for maintenance, operation, and supervision of essential power plant auxiliaries.
 - Repaired and restored large emergency power plant diesel engine worth over 2 million dollars during overseas deployment.
 - Dismantled and inspected components and adjusted and repaired them as necessary.
 - Trained, directed and instructed over 6 apprentices and helpers.
 - Maintained logs, lists and files and promptly completed all necessary paperwork.

05/2005 to 06/2007

Cashier

Taco Bell – Kissimmee, FL

- Accepted payment by from customers and made changes as necessary.
- Assessed customer needs and responded to questions.
- Worked with customer service to resolve issues.
- Operated cash register with proficiency.
- Responsible for ringing up customers in a timely manner and guaranteeing high level of customer service.

03/2004 to 04/2005

Food Service

Disney World – Orlando, FL

- Assessed customer needs and responded to questions.
- Cleaned and straightened work area.
- Responsible for daily set up of multipleGreeted guests and sat them at tables or in waiting areas stations.
- Worked overtime shifts during busy periods.

Education

- 2024

Master of Science: Computer Science

Johns Hopkins University - Baltimore, MD
- 2020

Bachelor of Science: Computer Science

Oregon State University - Corvallis, OR

GPA 3.25
- 2016

BBA: Information Systems and Technology

Old Dominion University - Norfolk, VA

GPA 3.4
- 2016

BBA: Economics

Old Dominion University - Norfolk, VA
