SUMMARY OF TECHNICAL SKILLS

Platform:

- MS SQL Server 2016/ 2012/2008, Windows (2000, XP, Vista,7,8)
- Experienced in MS Excel, MS Words, MS PowerPoint, Ms Outlook
- Microsoft Dynamics GP (Financial Accounting System)
- Core Banking Application (CBA) Finacle.

ETL Tools:

- SQL Server Integration Services(SSIS), DTS, SQL Server Import/Export Wizard

BI Tools:

- SQL Server Business Intelligence Development Studio, ER Studio, Visual Studio 2010

EDUCATION AND TRAINING

Lagos State University

Bachelor of Science: Accounting Bachelors Credentials was Evaluation and Authentication By World Education Services (WES)

Colaberry

Data Analytics

- Certificate in SQL ETL/EDW - Colaberry School of Data Analytics (TX, United States)
- Microsoft Certified Technology Specialist (MCTS): SQL Server 2008 Business Intelligence Implementation and Maintenance.

PROFESSIONAL SUMMARY

Results driven and goal oriented ETL developer using Microsoft BI suite which includes SQL Server Management Studio, SQL Server Integration Services (SSIS), SQL Server Reporting Services (SSRS) at Mortgage, Financial and Transportation organization. I am a well-organized, goal-oriented, highly motivated, effective individual and team player with excellent analytical, troubleshooting, and problem-solving skills.

- Experienced in creating complex SSIS and DTS packages for ETL purposes. Data migration from various type of sources (Excel, Flat File, CSV, XML, OLTP DB etc.), data conversions, data extraction/ transformation/loading (ETL) using DTS and SQL Scripts.
- Experience in configuring SSIS packages using package logging, breakpoints, checkpoints and event handling to fix the errors. Experience in troubleshooting SSIS packages using a variety of techniques/tools.
- Good knowledge of data marts, operational data store (ODS), OLAP, star schema modelling, snow flake modeling for fact and dimension tables.
- Experience in designing and developing considerable number of reports in SSRS using the data from ETL loads, proficient in developing drill through and drill down reports, parameterized reports, linked reports, sub reports, matrix reports, and chart reports using MS SQL server reporting services (SSRS)

EXPERIENCE

Experfy Inc - Data Warehouse/ETL Developer

Quincy, MA • 10/2018 - Current

- Used ETL (SSIS) to develop jobs for extracting, cleaning, transforming, and loading data into data warehouse.
- Involved in the Migration of Data from several sources to SQL Server.
- Prepared the complete data cleansing, mapping for all the migrated jobs using SSIS.
- Designed SSIS Packages to transfer data from SQL server, Excel, XML, and flat files to Data warehouse loading Dimensional and Fact tables.
- Extensively used SSIS transformations such as Derived column, Data conversion, Conditional split, Execute SQL task, Sort, Merge join, Send mail task, Slowly changing dimension, Lookup and Union all, Multicast etc.
- Created databases and schema objects including tables, indexes, and applied constraints, connected various applications to the database and written functions, stored procedures, and triggers while ensuring data integrity.
- Developed new and modified existing stored procedures, queries, user defined functions and triggers using SQL.
- Involved in creating new databases, performance tuning, deploying, scheduling and creating reports. This included ETL of data from flat file and excel sources using SSIS.

Four Seasons Hotels Inc - Junior ETL/BI Developer

Milan, TN • 01/2018 - 10/2018

- Build SSIS Package to import data from external source like OLTP, excel, Flat files and csv files
- Execute data loading techniques for all data warehouse load projects which include extracting a desired subset of data, transforming and converting data, creating mappings from source tables to destination tables, and loading the result data into a target database table.
- Write SQL code to extract, transform, and load data ensuring compatibility with all tables and customer specifications.
- Created and developed Sub-Reports, Drill down reports, Drill through reports and Parameterized reports using SSRS.
- Created Dashboards, Tabular, Matrix reports (crosstab or pivot), Charts and graphs as per customer requirements Using SSRS
- Trouble shoot existing failed jobs and automate new jobs to run using SQL Job Agent

Care New England Health System - Staff Accountant

RI, State • 04/2017 - 01/2018

- Assisted and performed monthly, quarterly, and yearly closing processes, which include preparation of journal entries including regular, accrual, re-class, reversal and adjusting journal entries.
- Responsible for the preparation of, compilation, review, and audit of financial statements for a range of clients from small to mid-size.
- Prepare the monthly financial statements and reports.
- Prepare cash, investment, and other account reconciliations monthly.
- Recorded the journal entries in the accounting system and monitoring cash flow needs.
- Assisted with the preparation of annual budget.
- Prepare closing journal entries and support month end review processes.
- Contact vendors regarding invoice disputes, and track debtors for outstanding debts.
- Performed a three-year reconciliation between cashed-based sales deposits to pos accrual-basis sales reports.

Shalom Health Care Center - Accounting Assistant

City, STATE • 04/2015 - 03/2017

- Assist with preparation of invoices and data entry, preparing financial reports.
- Prepare monthly bank reconciliation statement.
- Assist with clinics weekly, monthly cash flows reports
- Assist with reconcile of accounts payables and receivable transactions (Consolidated billings/ Invoices and single).
- Processing transactions, issuing checks, and updating ledgers, budgets.
- Reconciled all expenses and accounts, including company credit cards and expense accounts.
- Perform Journal entries and reconcile to General Ledger of the assigned accounts.
- Review employee expense reports for accuracy and business purpose.
- Logs, compiles, and files data, both electronically and manually.
