## WORK EXPERIENCE

### SAP BI Developer, 2016 - Present Visual BI Solutions Inc

- Created info packages and performed data loading as well as monitoring and fixing of data loads.
- Coordinated and implemented the ETL processes to extract SAP ECC data as well as legacy applications using DB connect, XML and other tools as necessary.
- Gathered and analyzed the reporting needs of the organization, identifying effective reporting techniques, using multiple data sources, and designing reporting data structures.
- Provided unit testing, integration testing, and participated in the QA and QC process.

### SAP BI Developer, 2014 - 2016 Axius Technologies

- Gathered and assessed business information needs by working closely with the business to prepare reporting requirements, functional designs and deliver reporting solutions.
- Provided on-call and after-hours support as required.
- Managed multiple assignments, aggressive targets, and critical deadlines.
- Involved formal testing and confirmed that reports met documented requirements.
- Worked with the technology team to communicate requirements.

### SAP BI Developer, 2012 - 2014 Avani Tech Solutions

- Configured the SAP BI modules to enable the required reporting capabilities.
- Supported and addressed user questions and issues.
- Coordinated the development of SAP R/3 ABAP programming to write custom extractors and other BI enhancements.
- Prepared development hours and cost estimates.
- Implemented standard content as well as custom BI solutions to support business requirements.
