## OBJECTIVE

To obtain SAP ABAP Developer position in an organization where I can use my skills to benefit and enrich my knowledge, gain more responsibilities and experiences.

## EXPERIENCE

### SAP ABAP Developer, 2016 - Present Accenture

- Created appropriate documentation in work assignments such as program code, and technical documentation.
- Supported project personnel in resolving fairly complex program problems.
- Created comprehensive development plans.
- Delivered technical design specifications based on functional input from the business and helped coordinate the delivery of these solutions.
- Developed programs and supported production activities for IT applications.

### SAP ABAP Developer, 2014 - 2016 Diverse Lynx

- Led development tasks and developed applications with SAP ABAP tools.
- Facilitated change and continuous improvement to SAP applications.
- Maintained close contact with the business and business processes.
- Executed system unit testing and supported integration testing and regression testing for processes requiring ABAP programming and User Exits.
- Identified, interpreted, validated and documented customer requirements.
