## SKILLS

- AWS Cloud Services
- Red Hat OpenShift
- Linux
- Centos
- Tomcat
- Apache
- Terraform
- Ansible
- Github
- Jenkins

## REFERAL

Available on request.

## ACADEMIC QUALIFICATIONS

**Bachelors of Science**  
**San Jose State University**  
2008

## CERTIFICATION

**AWS Certification**  
Amazon - 2020

## SUMMARY

Highly skilled and experienced Cloud DevOps Engineer with a strong background in designing, implementing, and maintaining scalable cloud infrastructure. Proficient in deploying and managing cloud environments using AWS, Azure, and Google Cloud. Exceptional ability to automate infrastructure, streamline processes, and optimize system performance. Adept at collaborating with cross-functional teams to ensure efficient and secure cloud operations. Proven track record of delivering cost-effective solutions and improving system reliability.

## WORK EXPERIENCE

### Cloud DevOps Engineer

**Mark Barn LLC** Feb 2019 - Present

- Experience in deploying and managing cloudbased solutions, preferably using platforms such as Amazon Web Services (AWS), Microsoft Azure, or Google Cloud Platform (GCP)
- Proficiency in scripting languages such as Python, Bash, or PowerShell to automate infrastructure provisioning, configuration, and monitoring tasks
- Strong understanding of DevOps and Agile methodologies, including continuous integration/continuous deployment (CI/CD) pipelines
- Knowledge of containerization technologies such as Docker and container orchestration platforms like Kubernetes
- Experience with infrastructure as code (IaC) tools like Terraform or CloudFormation to automate infrastructure provisioning and configuration

### SOLUTION ARCHITECT (DevOps)

**Amazon** Jul 2015 - Feb 2019

- Assist with migration of virtual servers to the AWS cloud environment using the VM Import/Export utilities.
- Set up NFS servers as needed for file sharing across Linux servers.
- Experience with Network configuration/networking protocols (TCP/UDP, IPv4)
- Proficient in using version control systems such as Git for managing infrastructure and code changes
- Knowledge of network concepts, security best practices, and firewall management in cloud environments
- Experience with troubleshooting and resolving infrastructure and applicationrelated issues in a cloud environment
- Strong communication and collaboration skills, as cloud DevOps engineers often work closely with developers, system administrators, and other team members to ensure smooth deployment and operation of cloudbased applications
