Professional Summary

6+ years of professional IT experience in develop, build and deployment of web applications. 3 years in practicing DevOps, Cloud Automation & Quality Engineering

Skills

- Effective communication
- Project planning
- Performance Management
- IT solution development
- Meeting participation
- Developer collaboration
- Operational analysis
- Build releases
- Agile
- Code reviews

Work History

- 06/2018 to 02/2021

DevOps Engineer
Cgi Group Inc. – Mobile, AL

 - Strong experience in working with version control systems such as **Git, GitHub, Bitbucket, Azure Git**
 - Collaborated with cross-functional development team members to analyze potential system solutions based on evolving client requirements.
 - Extensive experience in setting up **CI/CD pipelines** using tools such as **Jenkins, Maven, Docker, Nexus, Artifactory, Slack and Azure pipelines**
 - Experience in migrating applications to both **AWS** and **Azure** cloud platforms
 - Extensive experience in distributed **Agile and Scrum** methodologies to develop best practices for software development and implementation
 - Experience working with developing scripts and automation tools used for **building, integrating and deploying software releases to multiple environments**.
 - Strong knowledge in Tomcat, WebLogic servers on different Operating Systems like Windows, Linux VMware, UNIX and Solaris platforms.
 - Strong exposure to configuration management tools such as **Terraform, Ansible**.
 - Good knowledge in **Kubernetes** and have setup clusters in **Amazon EKS**.
 - Strong experience in code quality and code coverage tools such as **SonarQube, JaCoCo** and **JUnit**.
 - Good knowledge of virtualization and container technology like Docker. Experience in creating **Dockerfiles** and working with **Docker containers**.
 - Strong knowledge on practicing **TDD**, automating Junit tests using **Maven** in **Jenkins**.
 - Participated in the release cycle of the product which involved environments like **Development, QA UAT and Production**
 - A highly motivated, energetic individual, a team player with excellent communication and inter-personal skills
 - Worked closely with other business analysts, development teams and infrastructure specialists to deliver high availability solutions for mission-critical applications
 - Monitored automated build and continuous software integration process to drive build/release failure resolution.

02/2015 to 06/2018

Azure Cloud Engineer
Alvarez & Marsal – Nashville, TN

Responsible for managing Azure resources in cloud and maintain Continuous Integration and Continuous Deployment (CI/CD) pipeline for fast paced robust application development environment. As a member of onboarding team, my responsibility was to implement DevOps transformation by working with Agile teams to migrate applications to Azure platform.

Roles:

- Created **WebApps (PaaS solutions)** on Azure portal for deploying web applications using **Azure DevOps pipelines**.
- Setup AKS clusters in Azure using Azure CLI
- Setup repos on **Azure Git**, merging code from develop branch to master branch and make it ready for deployment.
- Created nightly builds with integration to code quality tools such as **SonarQube**, Veracode
- Set up the SonarLint plug-ins in developer’s workstation for detecting defects early during development.
- Created quality gates in **SonarQube** dashboard and enforced in the pipelines to fail the builds when conditions were not met.
- Built and deployed Docker containers to break up monolithic app into micro services, improving developer workflow, increasing scalability, and optimizing speed.
- Prepared and presented SCM best practices for implementing continuous integration for the team
- Helped teams to reduce defects rate by 30% by introducing **TDD** in first 3 months
- Migrated legacy applications to Microsoft **Azure** Cloud PaaS by setting up CI/CD pipelines on **AzureDevOps**

01/2015 to 07/2015

Scrum Master
Loan Depot – Franklin, TN

- Applied agile methodology to shorten cycle time and achieve target margins.
- Planned Agile best practices and encouraged team cohesion, overcoming impediments and hurdles to productivity.
- Shielded scrum team from external interference for optimal productivity and success of Agile process.
- Led sprint reviews, daily scrums and planning meetings to realize full team engagement.
- Facilitated Scrum framework – sprint planning, backlog grooming, daily scrums, sprint reviews and sprint retrospectives.
- Worked effectively with multiple Scrum teams both internally and off-shore.
- Managed product backlog and supported Scrum framework for monthly sprint releases.
- Collaborated with product owners, team members, technologists and other scrum masters to define solutions and drive progress.
- Planned and arranged meetings with external organizations and individuals, enabling parties to meet and discuss project progress.
- Proactively identified and found ways to resolve issues to prevent distractions and keep projects on track.

Education

- High School Diploma

Girls High School - Lagos Nigeria
- 12/2012

B.Ed.: Physical & Health Education
Michael Otedola College of Education - Lagos, Nigeria
