

SQL Developer who is ambitiously working with SQL. Worked and successfully delivered 5+ projects during six months till deadline. Created more than 2500 SQL queries, program functions and stored procedures according to developers request by working with different databases (Oracle, MySQL, PostgreSQL). Optimized and Tuned scripts several times by looking at execution plan and changing queries that caused to decrease cost. Worked with various SQL client tools such as PL/SQL Developer, DBeaver, Workbench. Enjoy working as a team member as well as independently. Combined patience, determination, and persistence to troubleshoot client issues.
