

## SUMMARY

I am a highly skilled Python Developer with 5+ years of experience specializing in Django, Docker, and React. I have a strong background in developing web-based applications and working with various tech stacks, including Flask, SQL, Kubernetes, and Git.

## EXPERIENCE

### Python Developer ABC FinTech Wealth Management

- 📅 2019 - 2022   📍 London
- Developed and maintained web-based applications using Django, Docker, and React. Worked closely with the CTO and a team of Python developers to optimize software development processes.
- Built and successfully launched a web-based financial management platform that handled transactional volume of £1M daily.
  - Developed and implemented an automated testing process that resulted in a 25% improvement in testing efficiency.
  - Collaborated with cross-functional teams to integrate machine learning algorithms into our web applications, resulting in a 20% increase in user engagement.

### Python Developer XYZ Tech Solutions

- 📅 2016 - 2018   📍 London
- Developed scalable web applications using Django and Flask
- Optimized application performance by applying caching and load balancing techniques, resulting in an overall 30% decrease in response time.
  - Developed and integrated a payment processing service into a client's web application, increasing revenue by 15%.
  - Created a real-time data analysis dashboard using JSON and AngularJS, leading to a 20% improvement in analytics accuracy.

## EDUCATION

### Bachelor of Science in Computer Science University of Leeds

📅 2012 - 2016   📍 Leeds, UK

## STRENGTHS

- 🔧

**Problem-solving**

Identified and resolved critical production issues, reducing errors by 30%.
- 🤝

**Collaboration**

Worked closely with cross-functional teams to deliver high-quality products on time and within budget.
- 🏆

**Innovation**

Pioneered the development of a new scalable architecture, resulting in a 50% improvement in website performance.

## SKILLS

Python	Django	React	Flask
SQL	Docker	Kubernetes	Git

## MY LIFE PHILOSOPHY

The only way to do great work is to love what you do.

## AWARDS

- ★

**Best Hackathon Project**

Awarded for leading the development of a mobile app that received 90% positive reviews on the App Store.
- 🔧

**Volunteer Award**

Recognized for dedication and hard work in organizing the University's annual charity event.
