WORK HISTORY

DevOps Engineer, 06/2016 - Current

Computer Services, Inc. – Oklahoma City, OK

- Working on solutions to move to an automated infrastructure using Chef, Jenkins and AWS.
- Setting up environments on AWS using Rundeck, SparkleFormation and Chef policy files. Wrote chef cookbooks for PHP, Java and NodeJS Applications.
- Setting up complex environments which include Load Balancers, Application Servers and DB servers using Chef and AWS. Using AWS security groups and iptables to keep the environments secure.
- Familiar with AWS services like EC2, ELB, S3, VPC, EBS, IAM etc Using knife and test kitchen to test cookbooks locally before deploying to AWS environments.
- Code reviews through github's PR feature.
- Using Chef Repo to manage roles, environments and data bags.
- Writing integration tests for chef recipes using serverspec.
- Part of a team which planned and executed migration from a traditional data center to AWS cloud

Lead Developer, 02/2016 - 06/2016

Cambridge Associates Llc – New York, NY

- Full stack development of the internal product system using Laravel.
- Worked with the team to add features to the existing system and migrated data and features from an old system to the new system.

PHP Software Engineer, 07/2015 - 02/2016

Shapeways – New York, NY

- Responsible for scoping and developing client website using the enterprise version of Magento E-commerce platform.
- Designed, built, tested and implemented stand-alone modules for Magento, including payment and promotion modules.
- Customized Magento's inherent features based on client needs.
- Built an internal product API using Silex and Mongo DB on the backend.

Senior PHP Developer, 05/2010 - 07/2015

Feedonomics – Phoenix, AZ

- Developed the price tracking REST API using Symfony and Doctrine.
- The API used MySQL as the data storage.
- Created and maintained the backend tasks for the API which included various jobs for price calculation and feed processing.
- Developed on the internal SAAS platform built using LAMP stack.
- Developed client implementations.
- Developed code for SSO integrations using SAML.

EDUCATION

Master of Science: Electrical Engineering, 2009

University of North Texas - Denton, TX
