SUMMARY

2+ years experienced Salesforce Professional with hands on experience in every phase of Software Development Life cycle with Agile methodology involving onsite and offshore coordination. Good knowledge on the Salesforce platform Service Cloud, Sales cloud, SF Dev-Ops and Testing. Experienced in developing and executing custom applications using Apex, Visualforce, Lightning, Testing and and deploying using various deployment tools like Flosum. Experience in data migration and integration using Data Loader. Proficiency in SFDC Administrative tasks like creating Profiles, Roles, Users, Page Layouts, Record Types, Email Services, Approvals, Workflows, Reports, Dashboards. Good experience in designing of custom objects, custom fields, role-based page layouts, custom Tabs, custom reports, report extractions to various formats. An effective team player who continuously seeks opportunities to master new domains and willing to work in a challenging and cross-platform environment.

CERTIFICATIONS

Salesforce certified **PLATFORM DEVELOPER - I**

Salesforce certified **ADMINISTRATOR**

FLOSUM certified SFDC deployment professional

EXPERIENCE

Salesforce Developer, 05/2019 - 12/2019

Deloitte & Touche L.L.P. – Salt Lake City, UT

Salesforce Developer with the following responsibilities:

- Refactoring, Optimization and Bulkification of triggers for multiple objects
- Developed REST API's for Integration with Google Maps using the Google Geo Coding API
- Developing Batch Apex to deal operations with bulk data like 40,000 records
- Creating and maintaining custom dashboards using Einstein Analytics
- Designed Junction objects and implemented various advanced fields like GeoLocation, Custom Formula Fields, Field Dependencies, Workflows for automated alerts, Field updates and Email generation as per Business needs
- Configuring and using Flosum for Continuous Integration and Continuous Deployments
- Automating several regular activities using Process builder
- Developed Apex classes with Location based SOQL queries

Salesforce Developer Intern, 12/2018 - 05/2019

Syngenta Global – Stanton, CA

- Establishing the Integration of Salesforce with AWS using Amazon connect and CTI Adapter
- Developing several web services (REST and SOAP) for exchange of various data with AWS
- Developing Apex classes for the custom functionalities
- Developing Custom Lightning App for hosting the call center application
- Creating multiple Visual Force pages and Apex controllers for their back end activity
- Creating process builder flows and Email triggers using them
- Creating multiple Analytics dashboards for the entire system using Einstein Analytics
- Integration with mule soft for the continuous polling of data between AWS and Salesforce
- Integration with Twilio SMS for sending text messages to Mobile
- Developed chat-bots using Einstein bots for answering the FAQ's without any human intervention
- Develop Algorithms using Einstein prediction builder for offering products to the customer based on the recent transactions using AI.

Salesforce QA Intern, 01/2018 - 12/2018

Sreeven Infocom Ltd – City, STATE

- Understanding the requirements given by the client and clarify If there are any requirement gaps
- Designing the test plan, test scenarios and test cases as per the IEEE standards covering all the requirements given
- Executing the test cases designed and finding the defects and updating them in the tracking tools
