## CAREER OBJECTIVE

Seeking an ETL Developer position in a stable company where I can use my skills to benefit the company.

## EDUCATION

### Bachelor's Degree in Computer Science, 2012

Lake Land College, Mattoon, IL

## WORK EXPERIENCE

### ETL Developer, 2016 – Present

Larven Technologies

- Worked with the business requirements and acted as a technical analyst to identify and understand the source data systems.
- Worked closely with cross-functional business and business intelligence teams to document ETL requirements and turn those requirements into ETL jobs.
- Developed audit reporting and quality improvement processes to ensure accurate, consistent delivery of data.
- Developed, adhered to, and was a proponent for Data Warehouse development standards, including ETL standards and best practices.

### ETL Developer, 2014 – 2016

Emagine IT

- Adapted ETL processes to accommodate changes in source systems and new business user requirements.
- Monitored systems and utilization for performance and capability trends; pro-actively identified and implemented corrective measures based on gathered metrics to prevent impact to internal processes and clients.
- Developed and maintained thorough business knowledge of source data in the Enterprise Data Warehouse.
- Participated in certain aspects of business user consulting, system analysis, and general system designs.
