## React Developer SUMMARY

6+ years experienced react development professional armed with hands-on experience in designing & deploying highly responsive user interface components by using React concepts. Proficient in designing wireframes and converting them into high-quality codes to build application interfaces via Javascript and ReactJS workflows. Adept at improving frontend performance by testing & debugging codes to boost overall performance while delivering maximum client satisfaction.

## KEY SKILLS

- Application Development • Wireframe Building • Front-end Architecture • UI Designing • Debugging
- Performance Improvement • Feature Designing • Webpage Designing • Coding • Webpage Optimization
- Project Management • Client Servicing • Graphic Designing

## TECHNICAL SKILLS

- React tools: React.js, Redux, Flux, Webpack, Enzyme,
- Front-end Development tools: Babel, NPM, Webpack,
- Languages: JQuery, JavaScript, CSS, HTML
- Performance Testing Frameworks: jest, Mocha, jest

## PROFESSIONAL EXPERIENCE

### React Developer

Aug '19 - Present

#### Technofusion Inc.

Seattle, WA

One of top 10 digital agencies serving across the world with net worth of USD 20 billion

#### Feature Development & Application Optimization

- Collaborated with front-end architects and updated 20+ applications to **Improve performance** by 15%
- Designed and developed **50+ user-facing features** via React.js and built front-end libraries for continuous development
- Tested and optimized 30+ REACT components for best performance across every device and browser

#### UI Designing & Application Development

- Supervised a team of 15 designers to design and implement **user interface ideas** in 45+ applications to improve presentations
- Analyzed client requirements to **reconstruct 10+ applications** for better user experience and improved business model

### Frontend Developer

Jul '17 - Jul '19

#### Digital Minds

Seattle, WA

One of the top web designing companies in the US with a team of 3k employees and revenues worth USD 50 million

#### Project Management & Graphic Designing

- Managed a team of 10 developers handling 20+ client projects and ensured their **bug-free delivery** before the deadline
- Designed **prototypes** and created high-quality visual elements for the company's web application

#### UI Designing & Application Interface Development

- Analyzed user requirements and developed **50+ responsive and functional UI components** via REACT concepts
- Built the application interface code using **JavaScript and React.js** based on the pre-made designs and wireframes

#### Code Testing & Debugging

- Troubleshoot and **debugged 10+ applications'** codes for smooth execution and improved stability
- Developed and Tested front-end architecture along with the UI concepts of 15+ websites to perform with **100% accuracy**

### Web Developer

Jun '15 - Jun '17

#### Troy Infotech

Seattle, WA

Web development company headquartered in the US with over 2k employees and servicing hundreds of clients across the world.

#### Webpage Designing & Testing

- Designed the structure and **web pages layout** as per the user requirements with 100% client satisfaction
- Performed **testing on 50+ applications** to enhance their stability and scalability resulting in 30% business growth
- Deployed 5+ programming languages like **HTML, CSS, and JavaScript** to build attractive and user-friendly web pages

#### Website Optimization & Development

- Developed reusable code and optimized **10+ websites** of the company to improve speed and performance by 40%
- Improved company's business **website performance** up to 30% by adding new features and functionalities

## EDUCATION

### B. Tech. in Computer Science

May '10 - May '14

#### New York University

New York, NY

New York University is one of the top universities in the US with 3000+ scholars and 200+ faculty members.

- GPA: 3.2/4.0
- Top 20 percentile of the class

## CERTIFICATIONS

- Full-Stack Web Development with React | Coursera | Dec '14
