📍 Columbus, Ohio

SUMMARY

Bearing 10+ years of experience as an SQL Developer, I've fostered innovative solutions and optimally executed numerous data migrations. Key skills include SQL, T-SQL Development, and auditing. My greatest achievement has been saving \$500,000 by implementing SQL optimizations.

EXPERIENCE

Senior SQL Developer

JP Morgan Chase

📅 2017 - Ongoing 📍 Columbus, OH

Directed teams in designing and implementing complex SQL solutions

- Directed the development and execution of complex SQL solutions, leading to a 15% increase in operational efficiency
- Led the conversion of over 2 million lines of legacy codes to T-SQL, enhancing system performance by 25%
- Managed the migration of over 500GB of data across multiple databases, improving data accuracy by 98%

SQL Developer

IBM

📅 2013 - 2017 📍 Columbus, OH

Encouraged innovative database solutions ensuring optimized performance

- Spearheaded a team to develop and maintain complex SQL databases, reducing system downtime by 20%
- Collaborated in data migration audit, leading to a decrease in data discrepancies by 30%
- Implemented several database optimization techniques, improving system performance by 18%

Data Migration Specialist

Accenture

📅 2009 - 2013 📍 Columbus, OH

Ensured structured data handling in migration processes

- Effectively participated in the design and development of data migration programs
- Coordinated and performed audit, reconciliation and exception reports for data migration, resulting in 99% data accuracy
- Developed robust coding systems for T-SQL procedures, boosting system efficiency by 20%

EDUCATION

Bachelor's Degree in Information Technology

The Ohio State University

📅 2003 - 2007 📍 Columbus, OH

STRENGTHS

Complex SQL Development

Excelled in solving various business problems through complex SQL development over 6 years

Data Migration Expert

Proven capability of effectively designing and developing large-scale data migration programs for 6+ years

T-SQL Procedures Coding

Robust experience in coding reliable and optimized T-SQL procedures for over 5 years

SKILLS

SQL

T-SQL

Information Technology

Designing

Developing

Data Migration

Audit

Coding T-SQL

Stakeholder Presentations

CERTIFICATION

Microsoft Certified: SQL Server 2016 Development

Successfully completed the certification from Microsoft

Advanced T-SQL Querying, Programming and Tuning for SQL Server

Cleared the certification course from edX

PASSIONS

Data Security

Passionate about securing data and ensuring privacy

Music

Enjoy immersing in different music genres
