### SUMMARY

Jr. Java Developer 3+ years of experience in developing web-based enterprise applications using J2EE technologies such as Hibernate, Spring, Struts, Multithreading, EJB, JDBC, JSP, TAGLIB, Servlets, JMS, JPA, JTA, Ajax, Maven, Ant, Web Services, REST (JAX-RS), SOAP (JAX-WS) and WSDL. Experience in development and technical support of Java/J2EE applications for Financial Services, Insurance, Banking, E-Commerce, Telecom, and Health Care Domains.

### SKILLS

Spring (MVC, Context, ORM, JDBC, JMS, Webservices, Transactions), Hibernate, Struts, JDBC, Servlets, JSP, JSF, EJB, JSTL, JNDI, SOAP, REST JAXP, JAX-WS, JAX-RS, XML, XSD, XSLT, JSON, DOM Parser, SAX, SOAPUI

### WORK EXPERIENCE

#### Jr. Java Developer

ABC Corporation - June 2016 - Present

- Working with a small team in enhancing the Jbehave framework using Java for the adaptability to the current project for creating the test environment.
- Implemented Java and J2EE design patterns like singleton, business delegate and data transfer object and data access object.
- Wrote SPA (Single Page Web Applications) using restful web services plus Ajax and Angularjs.
- Developed web services component using SOAP and restful API for inter-application communication.
- Designed and developed business and persistence layer components using Spring IOC and hibernate.
- Extensively worked on Vcenter with virtualization exposure in developing the functionalities related to the application through CLI and API.
- Developed a private assembly for the component promotion with the Kubernetes setup.

#### Back-End Java Developer

ABC Corporation - December 2015 - June 2016

- Analyzed the requirements and designed class diagrams, sequence diagrams using UML and prepared high-level technical documents.
- Designed and developed to upload gigabyte files to product licensing and delivery system.
- Designed and developed multiple files concurrently using multi-threaded executor service framework.
- Developed web applications using restful web services plus Ajax and Angularjs.
- Developed web services component using soap and restful API for inter-application communication.
- Established connections with other applications by using ActiveMQ with JMS.
- Designed and developed business and persistence layer components using Spring IOC and hibernate.
