## Junior SQL Developer | Data Analysis Enthusiast

help@enhancv.com linkedin.com San Antonio, Texas

### SUMMARY

Passionate Junior SQL Developer with 3 years of honing my skills in SQL Server Databases and T-SQL queries, eager to bring my expertise of building robust data solutions to a vibrant, team-oriented environment. Biggest achievement includes developing a database resulting in a 20% improvement in data retrieval speed.

### EXPERIENCE

#### SQL Developer

##### Rackspace Technology

2019 - 2022 San Antonio, Texas

Responsible for designing, developing, and maintaining SQL databases

- Developed and maintained 50+ queries and stored procedures for implementation of business logic leading to 15% improvement in efficiency
- Administered performance tuning of stored procedures, improving response time by 20%
- Collaborated with cross-functional teams to transform and load (ETL) data across various business systems
- Developed complex reports that amalgamated data from multiple sources using SQL and SSRS

#### Database Developer

##### IBM

2017 - 2019 Austin, Texas

In charge of database administration tasks and data analysis reporting.

- Developed and designed 3 databases with advanced data models, enhancing data structure optimization
- Performed trouble shooting and solved 100+ database related issues
- Supported senior management with data analysis and reporting tasks, improving data-driven decision making by 30%

#### Systems Analyst

##### JD Power

2015 - 2017 Westlake Village, California

Focused on the integration between various business systems and extraction of important data.

- Implemented detailed data mapping for extraction and transformation of data across 5 business systems
- Developed and maintained SSIS packages to automate tasks, which reduced manual effort by 25% in the data collection process

### EDUCATION

#### Master's in Information Technology

##### Texas A&M University

2013 - 2015 College Station, Texas

#### Bachelor's in Computer Science

##### University of Houston

2009 - 2013 Houston, Texas

### LANGUAGES

English

Native 

Spanish

Advanced 

### STRENGTHS

#### Problem Solving

Exhibit solid problem-solving skills by efficiently troubleshooting 100+ database related issues at IBM.

#### Self Starter

Proactive with a keen interest for learning and adapting to new developments in SQL and database technologies.

#### Detail Oriented

Ensured precision in data mapping and ETL processes, contributing to efficient data transformation and loading.

### SKILLS

#### SQL Server Database development

T-SQL queries Stored procedures

ETL SSIS SAP BI Data Analysis

SSRS Performance Tuning

Data Modeling

### CERTIFICATION

#### Microsoft Certified: Azure Data Engineer Associate

Completed a certification course provided by Microsoft.

#### SQL for Data Science

A focused course finished via Coursera, providing in-depth knowledge on SQL.

### PASSIONS

#### Data Analysis

Passionate about extracting and analyzing data to influence business decisions.

#### Sports

Enjoy watching and participating in various sports activities, particularly college and professional sports.
