SKILLS

Oracle 11G, Oracle PL/SQL, UNIX Shell Script, SQL Developer, Toad, Oracle Developer, IBM Rational, Agile & Waterfall, PowerBuilder

WORK EXPERIENCE

Oracle PL/SQL Developer

ABC Corp - 2010 – January 2018

- Created database objects like tables, views, sequences, synonyms, indexes using Oracle tools like SQL PL/SQL, SQL developer, and toad.
- Enforce data integrity using integrity constraint and database triggers.
- Proficient in advance features of Oracle 11g for PL/SQL programming like using records and collections, bulk bind, ref. Cursors, nested tables, and dynamic SQL.
- Created partitioned tables and partitioned indexes to improve the performance of the applications.
- Experience with performance tuning for Oracle RDBMS using explain plan and hints.
- Interacted with web development team to develop in tandem back-end solutions with front-end web executions.
- Executed Quality Control checks of source code created by other developers.

Oracle PL/SQL Developer

ABC Corp - 2008 – 2010

- Created and maintained technical documentation, process flows, etc.
- Created and Maintained Seed Data creation scripts.
- Provided technical expertise and recommendations while assisting fellow team members, either of development or testing.
- Troubleshoot technical issues and identified modifications needed in existing applications to meet changing user requirements.
- Participated in Business Requirement discussions, identified system impacts, and designed solutions.
- Delivered projects on time and within budget with quality.
- Ensured that the projects meet the customer expectations as measured by scorecards.
