WORK EXPERIENCE

Sr. SQL Server Developer

Wells Fargo - October 2015 – Present

- Involving in all phases of SDLC, and gathering business requirements from business people.
- Converting Data Transformation Services (DTS) application to SQL Server Integrated Services (SSIS) as assigned.
- Developing DTS packages to extract, transform and load into the campaign database from OLTP database using SQL server integration services (SSIS).
- Created ETL metadata reports using SSRS, reports including execution times for the SSIS packages, failure reports with the error description.
- Designed SSIS packages to extract, transfer, load (ETL) existing data into SQL server from different environments.
- Creating complex stored procedures using a linked server, CTE, temp table, SQL joins, ranking functions and dynamic SQL, and responsible for performing t-SQL tuning, multi-tasking and optimizing queries which takes longer time in execution with SQL server 2008/2012.
- Performing documentation for all kinds of reports and DTS and SSIS packages.

SQL Server Developer

ABC Corp - 2011 – 2015

- Used various ETL tools like SSIS/DTS for data flow from source files like XML, Excel, tables, and views to other databases or files with proper mapping.
