## SUMMARY

An enthusiastic software developer with over five years of experience, possessing exceptional expertise in React Native, Java, and C#. Led major projects at top tech companies, boosting user engagement and productivity. Looking forward to applying proven skills to create efficient and user-friendly applications.

## EXPERIENCE

### Software Developer

**Google**

 2018 - 2020     New York City, New York

Developed and maintained software applications, focusing on usability and performance.

- Spearheaded a project to revamp the user interface of a major product, leading to a 15% increase in user engagement.
- Implemented a new bug tracking system which reduced the average amount of time to fix bugs by 20%.
- Successfully migrated a major service to a cloud-based architecture improving system scalability.

### Software Engineer

**IBM**

 2016 - 2018     New York City, New York

Participated in the entire application lifecycle, focusing on coding, debugging, and troubleshooting.

- Developed a new repository management system resulting in more efficient version control.
- Optimized server side API code reducing the average API response time by 30%.
- Created detailed documentation which improved overall productivity by 15%.

### Senior Software Engineer

**Microsoft**

 2020 - Ongoing     New York City, New York

Designed and deployed software solutions to meet business and user requirements.

- Led a team to design a new architecture for a company-wide system, improving efficiency by 25%.
- Managed and scaled team's AWS services, resulting in a cost reduction of 20%.
- Increased system security by implementing advanced encryption measures.

## STRENGTHS

### Problem Solving

Exceptional ability to solve complex problems through critical thinking, evidenced by successful debugging of a complex software issue at Google.

### Team Leadership

Led a team of 5 software developers at Microsoft, improving team productivity by 20%.

### Adaptability

Quick to adapt to new technologies and frameworks - mastered React Native within a month of its introduction.

## EDUCATION

### Bachelor of Computer Science

**New York University**

 2010 - 2014     New York City, New York

### Master of Engineering

**Columbia University**

 2014 - 2016     New York City, New York

## SKILLS

React	Redux	React Native	C#	Java	WebAPI	Java West Services/RestFull Services	Spring Boot	HTML
JavaScript	Cloud Architecture	Server-side API
