Kennedy Klekamp

Python Developer

👤 Profile

Python Developer with 1 year of experience in designing, developing, and implementing software solutions using Python programming language. Proficient in creating web applications, integrating APIs, and leveraging data analysis libraries. Adept at working in agile environments, collaborating with cross-functional teams, and adapting to new technologies. Highly skilled in problem-solving, critical thinking, and time management. Committed to delivering high-quality, efficient, and scalable software solutions for diverse industry needs.

📑 Employment History

Senior Python Developer at Inceed, CO

Mar 2023 - Present

- Developed an optimized Python-based application for a major client, resulting in a 30% increase in efficiency and a 25% reduction in processing time.
- Implemented an automated testing framework that reduced code review time by 40% and increased overall code quality, leading to a 15% reduction in reported bugs.
- Spearheaded the migration of a legacy system to a modern Python-based platform, which improved system performance by 50% and decreased maintenance costs by 20%.
- Mentored a team of junior developers, leading to a 100% retention rate and a 35% increase in team productivity within six months.

Junior Python Developer at Techtonic Group, CO

Aug 2022 - Jan 2023

- Developed an efficient data processing pipeline for a major client, resulting in a 50% reduction in processing time and a 30% improvement in data accuracy.
- Implemented an automated testing framework for critical applications, leading to a significant decrease in software defects by 40% and a 25% faster release cycle.
- Optimized and refactored legacy codebase, enhancing overall performance by 35% and reducing maintenance costs by 20% for the company.

🎓 Education

Bachelor of Science in Software Engineering with a focus on Python Development at University of Colorado Boulder, CO

Aug 2017 - May 2022

Relevant Coursework: Software Engineering Fundamentals, Python Programming, Data Structures & Algorithms, Web Development, Database Systems, Object-Oriented Design, Network Programming, Operating Systems, Artificial Intelligence, and Machine Learning.

📜 Certificates

Python Institute Certified Entry-Level Python Programmer (PCEP)

May 2022
