PERSONAL STATEMENT

Senior ETL Developer/Lead with 12 years of experience in the Healthcare domain. Having IT experience in Design, Development, and Implementation and Testing of Database/Data Warehousing applications using Extraction, Transformation, Loading and Data Analysis. Extensive hands-on experience in using the Data warehousing tool IBM Web Sphere Datastage 7.5/ 7.5.1 Infosphere Datastage 11.3, 8.7, Talend ETL and also involved in Data Migration projects.

WORK EXPERIENCE

Senior ETL Developer/Lead
United Health Care -   September 2010 – Present

Responsibilities:

- Working on "UHG Talend Migration Project" as an ETL specialist to execute CSP platform which includes Datastage 8.7 ETL to Talend studio ETL with Hadoop.
- Responsible for building scalable distributed data solutions using Hadoop.
- Worked for hands-on Datastage 8.7 ETL migration to Talend studio ETL process.
- Designing, developing, validating and deploying the Talend ETL processes for the DWH team using Hadoop (pig, hive) on Hadoop.
- Collaborate with the data warehouse team to design and develop required ETL processes, performance tune ETL programs/scripts.
- Handled importing of data from various data sources, performed transformation like ETL (extract transform and load) and ELT (extract load and transform) into HDFS.
- Extracted the data from Oracle 12c, transformed and load in HDFS using Talend studio ETL tool.

ETL Developer
ABC Corp -   2006 – 2010

Responsibilities:

- Designed and Built ETL processing modules based on transformation rules, mapping rules, processing requirements and database model.
- Designed and Built the ETL auditing steps to ensure data integrity and completeness of the ETL process.
- Designed and Built the ETL process flow including module dependencies and parallel processing opportunities.
- Lead the design-build of programming specifications for each ETL component.
- Lead the design and execution of testing plans for each phase of the development process.
- Planned and ensured accuracy and quality of program code as well as a thorough data validation procedures.
- Developed efficient code that met the analysis and design criteria.

SKILLS

ETL Tools IBM DataStage 11.3, 8.7, 8.5, Talend Integration ETL Tool 5 & 6, Ascential DataStage 7.5 Databases Oracle MS Access, HBase, Pig ,Hive, CASSANDRA, MONGO_DB Languages UNIX SHELL, HSQL, CQL (CASSANDRA QUERY), TERADATA, SQL, AT&T Product-Cymbel Query Language, JAVA, XML Operating Systems Windows XP/NT/2000, UNIX, Linux. Scripting Unix Shell Scripting. TWS Composer Files Other Tools MS Office, SQLPlus, TOAD, SQL Developer, Teradata, Management Studio. Schedulers Datastage Internal Scheduler, Cron Tab, Zera, IBM Tivoli TWS
