Work Experience

Team Lead

Elemental • January 2022 — July 2023

— Managing frontend goals and epics, ensuring the timely completion of key milestones.

— Conducted thorough testing and implemented robust solutions, resulting in reliable updates that met user requirements.

— Acted as a mentor to the members of the Dev Team, providing guidance and feedback, assessing their levels, and creating growth tasks.

Frontend Architect

Elemental • June 2021 — January 2022

— Worked closely with the CTO to define objectives and align them with the company's strategic vision.

— Effectively conveying the company's vision to the Design Team and fostering a shared understanding of the product roadmap led to a reduction in design rework and an increase in the number of diverse design solutions, tripling its output. In extension, overall productivity in the company went up by 20%.

— Developed intuitive and visually appealing user interfaces, contributing to an enhanced user experience and improved customer satisfaction.

Full Stack Developer

Meone • July 2018 — January 2022

— I drafted and finalized statements of work, outlining project scope, deliverables, and timelines, ensuring clear expectations and smooth project execution.
— Wrote and maintained comprehensive project documentation, including technical specifications, user manuals, and troubleshooting guides, facilitating knowledge transfer and ensuring the long-term maintainability of the projects.

Hosting Platform Developer

SBB Serbia BroadBand • July 2016 — June 2018

— Successfully maintained and enhanced the functionality of the Hosting Platform, ensuring stable and reliable services for millions of users.

— Played a key role in the development of proprietary features and services for the Hosting Platform, contributing to the expansion of its ecosystem.

— Acquired expertise in cross-domain session handling, ensuring smooth and secure user experiences across different domains and services.
