Experience

Lead Data Engineer, 10/2020 to Current
Cox Communications Inc – Elkridge, MD

- Worked with business analysts to gather and define project requirements.
- Deployed business logic frameworks for model implementation.
- Coordinated system installations, testing and code corrections.
- Supervised team of developers in analysis and creation of mappings.
- Defined technical integration strategy and developed integration plans.
- Migrated the data from on-prem to AWS services.
- Assessed code during testing stage to determine potential glitches and bugs.
- Collaborated with support team to assist client stakeholders with emergent technical issues and develop effective solutions.

Sr.ETL Developer/Application Development Team Lead, 04/2017 to 09/2020
Kemper – Bordelonville, LA

- Coordinated specifications and requirements for project technical needs.
- Participated in team meetings and provided input on deadlines, designs and enhancements.
- Developed and implemented Spark (Python) code while observing coding standards.
- Recommended improvements to facilitate team and project workflow.
- Reviewed project requirements to identify customer expectations and resources needed to meet goals.
- Analyzed code and corrected errors to optimize output.
- Used Informatica BDM 10.x to create mappings, workflows and tasks.
- Worked with business analysts to gather and define project requirements.
- Identified, debugged and fixed system bottlenecks and problems.

ETL Lead Developer, 12/2009 to 03/2017
Toyota Motor Sales – City, STATE

- Participated in intra-organizational staff meetings to coalesce company-wide efforts around meeting prescribed business goals and addressing client concerns.
- Worked as part of project teams to coordinate database development and determine project scopes and limitations.
- Trained non-technical users and answered technical support questions.
- Developed and managed enterprise-wide data analytics environments.
- Exceeded customer satisfaction by finding creative solutions to problems.
- Created and implemented complex business intelligence solutions.

Junior ETL Developer, 07/2007 to 11/2009
Cognizant Technology Solutions, CTS – City, STATE

- Designed customized technical solutions to meet functional specifications outlined by customers.
- Assisted in User Acceptance Testing for customers, verifying ETL jobs complied with all assigned parameters, achieving milestones.
- Defined and documented ETL data mapping plans using Informatica Power center.
- Developed and managed enterprise-wide data analytics environments.

Education and Training

Bachelor of Electronics and Communication Engineering: 2007
Anna University - Chennai
GPA: 81

Certifications

- Certified in Alteryx Designer Core.
- Certified Agile/Scrum methodology.
