Alex Greenwood

Java Developer

📞 +1-890-908-8077   @ alex.greenwood@gmail.com   🔗 github.io/greenwood.java

📍 Columbus, OH

SUMMARY

Mid-tier Java Developer with over 7 years of experience mainly in the back-end area but just getting into front-end engineering. Looking to migrate from web development to mobile app development and face new challenges that I will learn from.

EDUCATION

B.S. Computer Science
Ohio State University

📅 2010 - 2014   📍 Columbus, OH

- Was a Department of Science and Technology - Science Education Institute (DOST-SEI) scholar
- President of the Computer Science club for 1 year
- Played for the CSU Cougars Baseball team for 2 years

EXPERIENCE

Mid-Level Java Developer
Crist

📅 2018 - Ongoing   📍 Columbus, OH

Crist specializes in building and maintaining websites for private and corporate clients. Crist's portfolio features over 300 websites.

- Promoted from Junior Java Developer to Mid-Level Java Developer within 3 months of employment
- Utilized GIT to manage collaboration with other departments and developers
- Worked on 70+ mid-scale development projects
- Created more than 100 technical design documents and Implemented Business logic for 60 features
- Interacted with java controllers (jQuery, AJAX, and JSON) to write/read data from back-end systems
- Worked on the front-end area of 5 websites featured on awwwards.com using Node.js, HTM5L and CSS3

Junior Java Developer
Wolf Inc.

📅 2014 - 2018   📍 Columbus, OH

Wolf Inc. is one of the leaders in NA in business processes management and development of IT solutions in the field of e-commerce.

- Worked in a 15-person team of designers, devs and business specialists
- Involved in the development and maintenance of over 200 business process management applications
- Reduced data loading time by 65% by writing clean PHP code in my first month of employment
- Developed reusable component libraries using J2EE technologies and Application servers to save time and increase productivity
- Created database programs in SQL server to manipulate data accumulated by internet transactions
- Developed and integrated 3 processes into bank tasks life cycle management system

Internship - Java developer
Ledner Group

📅 2012 - 2013   📍 Columbus, OH

Ledner Group is a company which specializes in load testing.

- Was able to meet all deadlines while studying and playing for the CSU Cougars baseball team
- Completed 460 hours of internship and Database training
- Load tested and monitored 4 e-commerce websites
- Diagnosed the ineffective processes with the help of senior developers
- Decreased loading times by 50% after enhancing the quality of the PHP code
