Annamae Schlessman

SAP Developer

👤 Profile

SAP Developer with 1 year of experience in designing, developing, and implementing innovative SAP solutions to optimize business processes. Proficient in ABAP programming, SAP Fiori, and SAP HANA, with a strong understanding of SAP modules and integration. Demonstrated success in delivering projects on time, collaborating effectively with cross-functional teams, and continuously enhancing technical knowledge. Highly adaptable and committed to driving efficiency, process improvement, and end-user satisfaction.

💼 Employment History

SAP Developer at NTT Data Services, VA

Feb 2023 - Present

- Developed and implemented a customized SAP solution for a major client, resulting in a 15% increase in operational efficiency and a 10% reduction in costs within the first year of deployment.
- Successfully migrated the legacy data of over 50,000 records for a large government organization to the new SAP system, ensuring 99.9% data accuracy and minimizing system downtime during the transition process.
- Led a team of 10 developers in the design and development of an innovative, user-friendly SAP application for a healthcare provider, which increased end-user productivity by 20% and streamlined business processes across multiple departments.

Associate SAP Developer at Booz Allen Hamilton, VA

Jul 2022 - Jan 2023

- Developed and implemented a streamlined SAP solution for a major government client, resulting in a 30% increase in process efficiency and reducing manual workload by 50%.
- Successfully led a team of 5 developers in the integration of SAP modules for a multi-million dollar project, ensuring seamless data flow and improving overall system performance by 25%.
- Identified and resolved over 100 critical SAP system errors in a high-pressure environment, leading to a significant reduction in system downtime by 40% and increased user satisfaction.
- Conducted comprehensive SAP training sessions for over 50 end-users across various departments, enhancing their understanding of the system and contributing to a 35% increase in productivity.
