EDUCATION AND TRAINING

International Technological university
San Jose, CA • 2017

Master of Science: Engineering Management

CAREER OVERVIEW

I am a Graduate student at ITU, San Jose pursuing Master's degree in Engineering Management department, with SAP ERP and Engineering Project Management , as core courses.

Besides, I have 6.25 years of experience in SAP logistics (MM/WM/PP/SD), as a production support consultant, functional consultant and SAP Operations manager, across various projects, and business domains, primarily automobile, manufacturing, retail , shipping and transportations.

My technological forte is primarily SAP Logistics and supply chain , but I also have a fair knowledge of logistics module integration with other modules like FI/CO, including the Country India Version of Finance and Taxation.
My latest role was SAP Governance Management for all SAP operations in Magneti Marelli Powertrain and Electronic Systems in India.

ACCOMPLISHMENTS

Awarded "Fastest Learner" certificate at my first job in Tata Consultancy Services.

Was awarded "Best Trainer" in KPIT Cummins , for conducting weekly training sessions on SAP Logistics and MRP area, for around 25 trainees per batch.

Awarded "Special award" by the CEO, Magneti Marelli, India for increasing achieving SAP stabilization , in a new implementation , and reducing IT outsourcing cost to zero.

Lead a cross country team of SAP consultants, based out of Italy, Brazil and Germany.

Increased the SAP usage KPI, among end users, by continuous training and support.
