Baton Rouge, LA

Profile

I am an experienced DevOps Engineer with over two years of hands-on experience in developing, deploying, and maintaining large-scale distributed systems. I have a proven track record of success in leading highly-functional teams and producing high-quality results. I am highly proficient in designing and deploying CI/CD pipelines with various tools like Jenkins, Ansible, and Terraform. I have also worked on automating deployments and configuration management tasks with Chef and Puppet. My background in Linux system administration, networking, and scripting languages has been critical in ensuring the smooth functioning of production environments. I am passionate about finding solutions to complex problems and developing innovative ways to optimize systems.

Employment History

Senior DevOps Engineer at Hired, LA
Nov 2022 - Present

- Developed and implemented a comprehensive DevOps strategy for Hired, LA, resulting in a 40% decrease in system outages and a 25% improvement in response times.
- Spearheaded the successful transition of Hired, LA's infrastructure to a cloud-based environment, resulting in a 70% reduction in operational costs.
- Automated the deployment process for Hired, LA's web applications, leading to a 50% increase in speed and efficiency.

DevOps Engineer at CGI Technologies and Solutions, Inc., LA
Aug 2021 - Oct 2022

- Successfully implemented a DevOps automation system, which reduced deployment time from 6 hours to 15 minutes. This allowed the development team to quickly deploy new features and updates, resulting in an increase of customer satisfaction by 10%.
- Led the migration of all microservices to a cloud-based platform, resulting in a 50% cost savings for the company. The migration also improved scalability and performance, resulting in a 30% increase in system availability.
- Automated the CI/CD process, which led to a 50% reduction in manual testing time and a 25% increase in the number of successful deployments each month. This allowed the team to focus more on innovation and new projects.

Education

Bachelor of Science in DevOps Engineering at Louisiana State University, Baton Rouge, LA
Aug 2016 - May 2021

Relevant Coursework: Network Engineering, Cloud Computing, Automation and Scripting, Systems Administration and Security, Agile Methodologies.
