Work Experience

React JS Developer • Haptic Z Inc., Chicago

- Developed and implemented Web protocols and standards (CSS3, Web Forms, XML) for a better browsing experience for users.
- Conducted frequent reviews of applications' integration and interface designs to ensure their compatibility with existing web features and applications. Monitored front-end performance and reported application errors if any.

Mar 2017 - Feb 2021

React Developer • TECH GIANT, Newyork, NY

- Analyzed errors in functionality and performance of web infrastructure. Debugged application codes to cut down real-time bounce rate by 35%.
- Created high-quality mock-ups for interface features and on-web designs with different prototypes and graphics, ensuring the compatibility of visual elements with websites' architecture.

Dec 2016 - Feb 2017

Education

Class of 2013

The University of South Florida - Tampa, FL

B.A in Computer Science
